Most Inspiring

We were able to present our "Sunsites Story" to a large gathering of Chambers of Commerce & Visitors Center employees and volunteers in May. The meeting was held at Arizona State University and included Chambers from Phoenix, Tucson, Green Valley, Willcox, Sierra Vista, Douglas, Benson, Safford and many other cities and towns to the north. We were voted "Best Experience" in Arizona by those in attendance. We passed out brochures and made many good contacts. All said they would send golfers our way to assist our cause.

Remember.... Our Goal for the Summer!
Making Sunsites a Summer Golf & Travel destination!

Thank you all for your continued support!

Clubhouse Restaurant

The SCGA has appointed a committee to organize our ongoing efforts to get the restaurant up and running. We are considering several options and are pursuing a positive outcome which will benefit the Golf Course and Sunsites at large. For questions or comments please contact Lynn Christensen at **520-444-3041**

To Our Village... THANKS!

☀️ To the Volunteers who continue to do the myriad of jobs that keep the Golf Course in great shape and functioning on a daily basis.

☀️ With many seasonal residents gone for the summer, we can use some additional help. Please contact Linda Gorton or Jim Cramer.

☀️ **Continued thanks to all our cheerful Volunteers!**

Golf Course Update

Jim Cramer says that the deep aerification of the greens March 31 is really paying dividends. With additional applications of water, nutrients and surfactant, deep root growth is progressing nicely. The surface of the greens is super smooth, soft and spongy to the step. There are a few small problem areas that need to be addressed and when the Spring winds stop, we will get going on the repairs. **Get your putter out & enjoy the greens!** We are currently waiting for the monsoons to start the deep aerification of the fairways and the application of gypsum. 🇺🇸
